S1) SANTIAGO CITY TOUR VISITING PUEBLITO DE LOS DOMINICOS AM OR PM

Santiago de Chile, today a modern and bustling city with 6 million of inhabitant, was founded by the Spaniards the 12 of February of 1541. The tour starts driving along Av. Libertador Bernardo O'Higgins, the city main street to the oldest neighborhood República that was the most elegant area of Santiago at the end of 1800 beginning of 1900. On the way we pass by the Army Arsenal and stop at the Horse Race Track of Santiago founded in 1869. We continue by República Avenue where the houses of the high society of one time, today became private Universities and Institutes. Then, we continue to the Civic area to see La Moneda Presidential Palace seat of the Government. We walk to the main square Plaza de Armas the place from where the city has grown throughout the centuries. Important building such as the Metropolitan Cathedral, the City Hall, the Central Post Office and the National Historical Museum surround the square. We visit the Pre-Columbian Museum. Drive up to Santa Lucia hill where Santiago was founded, today a public park located aside the National Library.

Finally, we will visit "Pueblito De Los Dominicos" one of the best Chilean handcraft in Santiago, at the foothills of the Andean Mountains and surrounded by a simple country style atmosphere, the historical colonial site of Los Dominicos is found. We will see artists working on novel natural products such as leather, fine woods, straw, baked mud, glass, wool, roots, metals and semiprecious stones such as silver and lapislazuli, transforming them into beautiful and unique art pieces. The artisan's Village of Los Dominicos mixes our history and our hand crafting traditions.
